

## Aircraft Engine Applications

- Seal rings
- Blade retainers
- Clamps
- Clips
- Springs
- Seal plates
- Shimes
- Rings

# Technical information

## EN/AS 9100 Certified

**Engine manufacturers :** Safran Aircraft Engine, CFM International, GE, Powerjet, Safran Helicopter Engine, Engine Alliance, Rolls-Royce, Europrop

**Engine programs :** M53, M88, Atar, CFM56, Leap-1A, Leap-1B, Leap-1C, GE90, GE9X, SaM146, Arrano, Arrius, Arriel, Makila, RTM322, Aneto, Adour, GP7200, Trent XWB, Trent 1000, TP400

Materials
Carbon steel
Stainless steel
Nickel - Cobalt base alloy
Titanium alloy
Copper base

## Seal rings & blade retainers

Design
Diameter up to 700 mm already qualified
According your specifications (no known limitations)
Wave design possible

Sections

## Smaller components

Designations
Brackets
Clamps
Springs
Clips
Shimes
Rings

Applications
Air intake
Exhaust
Fuel and fluid systems
Actuators
Air management systems
Flight control systems
